African Cultural Week in Review

May 21 - 29 | Spirit of Africa Night Gala | Africa Fest

African Cultural Week began with our fundraising gala on Saturday, May 21, 2022 at Edelweiss Center where the sounds, sights and tastes of Africa were celebrated. It was a beautiful night of celebration of our music and the spontaneity of our dances. The audience was introduced to the traditional art of storytelling as practised in Congo, Brazzaville through the performance of Jean-Pierre Makosso, a Congolese native. There were over 150 people in attendance who enjoyed partaking in traditional foods from various parts of Africa and dancing together to afrobeats.

We celebrated our ISSAMBA Showcase, which is a series of curated concerts showcasing rhythms, music and dances of Africa headline by Zal Sissokho, a world-renowned kora player and his band, and the Abahebera Drummers, a group of 12 Burundian drummers from the Burundian community in Regina acclaimed for their animated performances in many cultural events all over Canada. The event was scheduled over the course of two days to give all communities access to it; it was held on May 27, 2022 in Sooke and May 28, 2022 at The Dave Dunnet Community Theatre.

Africa Fest 2022 was the crowning event of our African Cultural Week which featured new presentations from our headliners as well as afrobeats workshops and workshops on African Sounds. As a cultural centered organization, we programmed the event to introduce the community to beautiful African sounds through Djembe and Balafon workshops. The workshops were led by two African born artistes with mastery of these instruments.

The performance of the Abahebera Drummers brought the centennial square to a standstill. It was a delightful celebration of African culture and intergenerational knowledge transfer as the group has members in their teenage years and one even younger than 10. Each drummer showcased their skills individually and as a group and it was meaningful to observe the youngest member incorporate contemporary Canadian culturally relevant dance movements into the traditional Burundian performance - a display of cultural exchange or blending that is the cornerstone of multiculturalism.
